

ACCEL PowerFilters™ utilize the same filtration material used by winning off-road and motorcycle racers for years. Now available for direct replacement in passenger cars and light trucks, PowerFilters™ provide increased airflow for more power and improved filtration for extended engine protection.

WHY ACCEL POWERFILTERS™

As with installing a larger carburetor or adding a turbo-charger, increasing the amount of intake air available to the engine increases its potential horsepower. ACCEL's reticulated, open cell polyurethane foam is especially designed for high flow filtration. More air can flow through the PowerFilter™, it does not depend only on its surface for filtration, but traps dust and dirt throughout its entire "depth" or thickness. Therefore, the PowerFilter™ can be designed with much less airflow restriction compared to paper filters.

PowerFilters™ are equipped with two stages of filtration material. An outer layer of coarser foam traps larger dirt particles while maintaining extremely high airflow. An inner layer of finer foam stops the smallest particles (to 3 microns in diameter) from entering your engine. Foam strand spacing is precisely controlled during manufacturing to ensure maximum airflow and optimum filtration.

PowerFilters™ are washable and reusable. When cleaning is required, the foam element can be removed from the steel frame (round element only) and washed in any grease cutting liquid dishwashing detergent or our Foam Filter Cleaner P/N 71010. After rinsing and drying, just re-oil the element with ACCEL's flame retardant Foam Filter Oil P/N 71000. Once the filter is washed and re-oiled, it's as good as new!

We tested the advanced technology of dual stage foam vs. cotton gauze on a 1998 Pontiac Trans Am 6-speed with a Borla cat-back exhaust system on our Dynojet Model 248C chassis dynamometer, and here are the results!

ACCEL PowerFilters™ Maximum Flow, Maximum Power!

Proven to offer the highest air flow and the best engine protection available.

ACCEL PowerFilters were put to the test and proven to make your engine come alive with more power! Independent laboratory tests have shown ACCEL PowerFilters to flow as well as gauze filters, and much better than paper filters. In fact, they were proven to be unparalleled at stopping dirt.

Priced substantially lower than comparable gauze filters, ACCEL PowerFilters provide the best value, highest air flow and the best engine protection for your money.

PAPER FILTER

288 hp @ 5,500 RPM 303 ft/lbs @ 4,200 RPM

GAUZE FILTER

292 hp @ 5,700 RPM 306 ft/lbs @ 4,400 RPM

ACCEL PowerFilter

294 hp @ 5,600 RPM 307 ft/lbs @ 4,400 RPM

ACCEL'S LIFETIME WARRANTY

All ACCEL PowerFilter™ air filter elements are warranted against defects in materials or workmanship. This limited Lifetime Warranty covers the original PowerFilter™ purchaser for as long as he or she owns the vehicle on which the filter is originally installed. Unlike other filter warranties, ACCEL does not limit its PowerFilter™ warranty to exclude off-road or racing usage. Each PowerFilter™ package contains a warranty registration card that must be forwarded to ACCEL; the card also contains a complete explanation of the limited Lifetime Warranty.

TPI POWERFILTER FOR GM TPI AND ACCEL SUPER RAM SYSTEMS

Accel's open cell reticulated low restriction dual stage foam PowerFilter for GM TPI V8's allows removal of OEM duct work for better airflow. Also fits ACCEL SuperRam Injection Systems.

GM TPI V8 1991-90 and ACCEL SuperRam Fuel Injection Systems72100

FOR OPEN ELEMENT AIR CLEANERS

ACCEL's open cell reticulated dual stage foam PowerFilter elements for direct replacement in aftermarket and original equipment open element air cleaners.

Diameter	Height	
14"	x 2 1/4"70002
14"	x 3"70003
14"	x 4"70004
14"	x 5"70005

FOAM FILTER CLEANER

Removes dust and dirt build-up collected on ACCEL's PowerFilter. Spray on action, safe water soluble and biodegradable solution, washes away with water.

16 oz. aerosol Can 71010

FOAM FILTER OIL FOR REOILING AFTER CLEANING

This specially formulated wetting agent is used to prepare cleaned foam filter elements. It adheres to foam strands to trap dust and dirt contaminants in inlet air.

5-1/2 oz. Aerosol Can71000

FEEL THE BLAST!

WITH ACCEL'S COLD AIR KITS

Talk about a product that blows away the competition! The ACCEL SuperTube cold air induction kits provide over 50% increased air flow – a 25 HP increase over stock on an LPE 383 engine. Designed by John Lingenfelter and used on his engine packages, these kits feature flow bench, dynamometer and a track-tested design to deliver maximum air flow. Also, a larger air filter with more surface area than any other brand on the market is included to provide the best filtration protection available for your engine.

ACCEL SuperTube cold air kits were designed by professional engine builder and NHRA champion John Lingenfelter, so you can have confidence that they are the highest flowing, highest quality kits money can buy.

- Flow bench, dynamometer, and track tested design
- High temperature, original equipment type material and molding process
- Designed by John Lingenfelter, used on his engine packages
- Over 50% increase in air flow
- 50 state emissions legal
- Easy to install
- Larger air filter with more surface area than other designs (Maximum protection for your engine)
- Over 25 HP increase over stock on an LPE 383 for part #'s 74100, 74101

1993 Camaro/Firebird74101

1997-94 Camaro/Firebird74100

The ACCEL SuperTube cold air induction kits are the highest flowing, highest quality kits available. Dyno testing part # 74100 by Lingenfelter Performance Engineering has shown over a 25HP increase over stock on an LPE 383 engine. ACCEL SuperTube cold air kits are designed for maximum flow and the best filtration protection available by using a larger air filter with more surface area than the competition.

**Insist on the best –
ACCEL**

Friendly**

KOOL BLUE PERFORMANCE FILTERS

ACCEL KOOL BLUE AIR FILTERS

THE ULTIMATE PERFORMANCE AIR FILTRATION SYSTEM!

These enviromentally friendly filters feature a washable and re-usable element with a unique design that produces maximum air flow and ultimate filtration. High quality construction and appearance guarantees a long life.

Superior Performance

- Proven to out-perform the competition
- Increased flow & filtration compared to paper and single stage foam elements
- Provides one million miles of increased performance

Superior Filtration

- The only cotton gauze construction filter that will protect your engine against particles as small as 2.8 microns
- Maintains efficiency even when used
- Clean and re-use every 50,000 miles, or follow the manufacturer's air filter interval for frequence of cleaning

Vehicle Warranty

- ACCEL Kool Blue Air Filters will not void your vehicle warranty per the Magnuson-Moss Warranty Act of 1982
